

GHOST RIDER

Another town in my twisted fate
Like the storm draws circles on the lake
Unfulfilled destiny is mine
Between two worlds now I serve my time

In this life love came to my door
But I turned away and she never came no more
Solitude is my cross to bear
Take my hand I'll lead you over there

Ghost Rider comes when you call his name
Ghost Rider comes he can ease your pain

In the dark I have no dreams to hold
Who can live with a heart so cold
Offer me your final day of strife
Give to me the eternal gift of life

He rides the night the seasons all the samed
Searching hearts another soul to claim
Doesn't hide behind a reaper's veil
Destination could be heaven could be hell
