

GIVE IT A TRY

Yes I got through it
But I'm not going back
It all comes and goes
Baby that's a fact

I've been through the tunnel
Now I see the light
I've walked among the thieves
But I came out alright

You had your agenda
But Baby I've got mine
I don't owe you anything
And I'm doing fine!

I still walk with my head high
I look myself in the mirror
every night
You should give it a try.

You took your chances
You pressed your luck
Thought I was bluffing but I
I pulled the plug

You were a poison
I had to let that apple fall
Didn't fall far from the tree
No, not far at all

In a month of Mondays,
I might forgive
Chalk it up as live and learn
Or just forget
