

Valentine

Somebody pulled the sheep's wool over my eyes Valentine
Nobody told me I was just wasting my time

I was waiting at that prison door Valentine
Didn't know I'd be the third in line

I'm just another notch in your belt
A love made in heaven's gone straight to hell

I'm gonna break this spell Valentine, Valentine
The news is out live wire on the hot line

You told me that you'd love me till you die Valentine
As far as I can tell you're still alive

But we can make amends to this slight
Quick and painless or not quite...

I see your face when I close my eyes Valentine
I'm needin' something money can not buy

I can feel a deep dark rumblin' inside Valentine
I'm coming round ridin' that white line
